DETAILED ACTION

Election/Restrictions

1. In view of the applicant's remarks, claims 30-41, directed to the species of fig.8 no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Stephen J. Holmes on November 19, 2003.

The application has been amended as follows:

In the claims

In claim 1, line 3, add - **-each of-** - between wherein and said mirror periods.

In claim 22, in line 2, delete "first".

In claim 22, in line 3, add - **-each of--** between wherein and said mirror periods.

In claim 30, in line 4, add - **-each of-** - between wherein and said mirror periods.

In claim 30, in line 13, add - **-said-** - before each of said plurality of mirror periods.

Allowable Subject Matter

3. Claims 1-15, 22 & 30-41 are allowed.

The following is an examiner's statement of reasons for allowance:

US 5,757,837 and US 6,396,865 appear to be the closest prior art references.

These references teach an optoelectronic device comprising an active region adjacent a first distributed bragg reflector (DBR) comprising a plurality of mirror periods wherein each of the mirror periods comprises a first layer formed from a first material having a first thermal conductivity and a second layer formed from a second material having a second thermal conductivity that is greater than said first thermal conductivity. However, these references fail to teach that the optical thickness of a first layer does not equal the optical thickness of said second layer. Prior art of record fails to teach or suggest to incorporate these limitations into above references to arrive at the claimed device.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
